

**Fibercon®**

Fibercon® Pro Vectran

Vectran reinforced for increased performance

Fibercon® Pro is the most tightly woven sailcloth for long lasting performance. Our advanced weaving techniques allow us to tailor the strengths of the sailcloth to handle the loads for a given application. This combined with our exceptional UV stability guarantees years of quality sailing.

For those who seek increased performance from their sails, we have developed a new sailcloth:

Fibercon® Pro Vectran.

This new sailcloth combines the unique properties of the **Fibercon®** yarn with the ultimate strength and flexibility of Vectran. Our unique **firm Polypreg finish** is applied to maximise diagonal stability and ensure the perfect match to your sailing aspirations.

Go the extra mile!

► Relative qualities

► Weight range Fibercon® Pro Vectran

Style	Construction		
	Weight oz.	Warp denier	Fill denier
6.7	225P	x	600P/750V
7.7	225P	x	1000P/1000V
9.7	380P	x	1000P/1500V
