Motorboat Enclosures

Custom Designs

Dolphin make various designs of motorboat covers to suit your requirements. We have found over the years that there is no such thing as a standard cover for a motorboat. We listen to your requirements, visit or request photos of the boat so we can come up with the best solution to suit your needs.

These can be enclosures to fit around the existing structure of the boat or to a completely new framed system to suit. After discussions we can offer our advice on window positions, doorways, removable sides that will fit around your requirements and the final design.

Bespoke enclosure covers on custom stainless steel frames

Enclosures designed to fit around the existing super structure

Fabric - WeatherMax 80

WeatherMax is a fabric that combines breakthrough UV technology with water resistance and durability. WeatherMax is the perfect balance of science, resilience and style.

The new WeatherMax fabric has taken away the need to make a choice between a waterproof and a breathable fabric by offering a solution to both. The WeatherMax has a HydroMax finish which ensures there is no need for extra coatings. This makes the WeatherMax lightweight, water resistant, non-sagging and durable. The HydroMax finish also provides excellent breathability to help reduce condensation and mildew.

Window Upgrade

PVC window material is used as standard but we can upgrade the window to *Strataglass* for unrivalled clarity. This is not an option when the sprayhood is to be folded down.

STRATAGLASS
STRATAGLASS
The Clear Choice

Tenara Thread

- UV and weather-resistant
- Unaffected by sunlight UV radiation
- Unaffected by weather including water or saltwater
- Will not rot or decay
